SOLIDWORKS®

API Fundamentals

© 1995-2022, Dassault Systèmes SolidWorks Corporation, a Dassault Systèmes SE company, 175 Wyman Street, Waltham, Mass. 02451 USA. All Rights Reserved.

The information and the software discussed in this document are subject to change without notice and are not commitments by Dassault Systemes SolidWorks Corporation (DS SolidWorks).

No material may be reproduced or transmitted in any form or by any means, electronically or manually, for any purpose without the express written permission of DS SolidWorks.

The software discussed in this document is furnished under a license and may be used or copied only in accordance with the terms of the license. All warranties given by DS SolidWorks as to the software and documentation are set forth in the license agreement, and nothing stated in, or implied by, this document or its contents shall be considered or deemed a modification or amendment of any terms, including warranties, in the license agreement.

For a full list of the patents, trademarks, and thirdparty software contained in this release, please go to the Legal Notices in the SOLIDWORKS documentation.

Restricted Rights

This clause applies to all acquisitions of Dassault Systèmes Offerings by or for the United States federal government, or by any prime contractor or subcontractor (at any tier) under any contract, grant, cooperative agreement or other activity with the federal government. The software, documentation and any other technical data provided hereunder is commercial in nature and developed solely at private expense. The Software is delivered as "Commercial Computer Software" as defined in DFARS 252.227-7014 (June 1995) or as a "Commercial Item" as defined in FAR 2.101(a) and as such is provided with only such rights as are provided in Dassault Systèmes standard commercial end user license agreement. Technical data is provided with limited rights only as provided in DFAR 252.227-7015 (Nov. 1995) or FAR 52.227-14 (June 1987), whichever is applicable. The terms and conditions of the Dassault Systèmes standard commercial end user license agreement shall pertain to the United States government's use and disclosure of this software, and shall supersede any conflicting contractual terms and conditions. If the DS standard commercial license fails to meet the United States government's needs or is inconsistent in any respect with United States Federal law, the United States government agrees to return this software, unused, to DS. The following additional statement applies only to acquisitions governed by DFARS Subpart 227.4 (October 1988): "Restricted Rights - use, duplication and disclosure by the Government is subject to restrictions as set forth in subparagraph (c)(l)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252-227-7013 (Oct. 1988)."

In the event that you receive a request from any agency of the U.S. Government to provide Software with rights beyond those set forth above, you will notify DS SolidWorks of the scope of the request and DS SolidWorks will have five (5) business days to, in its sole discretion, accept or reject such request. Contractor/ Manufacturer: Dassault Systemes SolidWorks Corporation, 175 Wyman Street, Waltham, Massachusetts 02451 USA.

Lesson 7: Selection and Traversal Techniques

Case Study: Programming With a Selected Object
SelectionManager
Accessing the Selection Manager
Counting Selected Objects
Accessing Selected Objects
Getting Selected Object Types
Getting Feature Type Names
Feature Data Objects
Accessing the Feature Data Object
Accessing Selections
Releasing Selections
Modifying Feature Data Properties
Modify the Object Definition
The SOLIDWORKS BREP Model
Traversing Topology and Geometry
Case Study: Body and Face Traversal
Returning a List of Body Pointers
Face Material Properties
Case Study: Feature Manager Traversal
Traversing the FeatureManager Design Tree from the Top 16.
Displaying Feature Names and Types
Setting Feature Suppression
Setting Feature UI State
Obtaining a Feature by FeatureManager Design Tree Position . 169
Exercise 11: Handling Preselection 1
Exercise 12: Handling Preselection 2
Exercise 13: Traversing the FeatureManager Design Tree 17-

esson 8:	
Adding Custom Properties and Attributes	
Case Study: Custom Properties	178
Adding Custom Properties to a SOLIDWORKS Document	179
CustomPropertyManager Object	179
Setting and Getting Custom Property Values	181
Getting Custom Property Names	182
Getting the Custom Property Count	182
Case Study: Configurations With Custom Properties	184
Returning Mass Properties From a SOLIDWORKS Model	186
Using the API to Return the Mass Properties	186
MassProperty2 Object	186
Case Study: File Summary Information	189
Adding Summary Information	189
Case Study: Document Attributes	190
Naming Attributes	191
The Attribute Objects	191
AttributeDef Object	191
Attribute Object	
Parameter Object	
Case Study: Face Attributes	
Finding the Cylindrical Faces and Attaching Attributes	
Displaying Callouts in the Model View

Lesson 11: Notifications

Appendix A: Examples

Notifications
Notifications in VBA
Case Study: Simple Notification
The Class Module
Case Study: Using Notifications in .NET
The AddHandler Keyword
The AddressOf Keyword
The Event Handler Classes
The Document Event Handler Class
Attaching the DocumentEvent Handlers
Inheritance
Polymorphism
The Derived Event Handler Classes
The DocView Class
Detaching the Document and Model View Event Handlers 314
Detaching the SOLIDWORKS Event Handlers
Interfaces That Support Notifications
Exercise 19: Handling Events Using the Add-in Wizard 323
Solution
Macro Feature
Batch Conversion 1
Batch Conversion 2
Assembly Traversal
